Subject: Drawing approval

We send the following approved drawings:

Number	Sheets	Date	Title of Drawing / Your Ref.	Annuls/Replaces
STRT-41210	8	22 Jan 2021	BASE SLOT FOR SLOT MACHINE - BSTR05FIA11-350	

General notes:

- The Base Slots are approved for slot machines (fixed above) having max weight of 300Kg;
- The allowable operating conditions of the Base Slots are defined by the following max accelerations of the Vessel on the which the slot machine will be mounted: 1g in vertical direction, 1g in transverse direction, 0.5g in longitudinal direction (g= gravity acceleration);
- The approval does not refer to the connection of the slot machine to the Base Slot and does not refer to the connection of the Base Slot to the hull structures;
- The connection details between the components of the Base Slot are to be carried out to the satisfaction of the RINA Surveyor.

We kindly ask you to hand a copy of the above documentation approved to the RINA Office under the jurisdiction of which the work will be carried out.

In case of any question please contact PIERPAOLO IACCARINO.

Yours faithfully,
